Product Description:

Inspired by the urban element of the 'piazza', the tray 19:00 from the 'Meridiane' collection is the ideal accessory to serve convivial snacks or to simply decorate a table.

Its minimalist yet sophisticated shape is a style statement and gives it a timeless charm that allows it to adapt to different environments. The vertical component, painted with precious metals such as 24k gold, platinum and copper, recalls the recurring decorative element in Italian squares, whether it be a sculpture, an obelisk or a fountain. This gesture is underlined by the painted shadow that stands out unequivocally on the surface of the 'piazza' as if it were a sundial and makes this cutting board a unique object of its kind.
